Something about Basel!!

Nestled in the Three Countries Corner of Germany, France and Switzerland, Basel is one big, world wide Pharmacy city, full of surprises located on both banks of the busy river Rhine.

Strategically situated in the heart of Europe where the Rhine turns north, Basel has long been an important transport hub and a junction for rail lines from every direction. The EuroAirport located only ten minutes from the city centre, offers connections to the international air network. You will find that the city is easy to get to and public transport carries you quickly wherever you want to go to free of charge. Beautiful nearby regions can be reached in no time: The Jura, the Vosges and the Black Forest are all close by.

The blending of Celtic, Roman and Germanic peoples.

Remarkable cities also have remarkable histories. Settled by the Celtic in prehistoric times, Basel also attracted the Romans. After the Romans came the Alemannic and Frankish people. The first University of Switzerland was founded here in 1460. When Erasmus of Rotterdam lived in Basel, the city was a centre of humanistic scholarship and of printing and paper manufacture. The world-famous pharmaceutical and chemical industries had their roots in silk ribbon manufacturing. Thus a European centre of culture, trade and finance arose out of a fortified settlement.

Where the past meets the future

Besides being one of the best preserved and most beautiful in Europe, the old town of Basel is where the very soul of the

city is revealed. History becomes tangible here. A stroll turns into a fascinating trip through the many epochs that have left their mark. You will find elegant patrician houses dating from the Baroque period, many fountains and a beautiful Cathedral and City Hall.

A passion that makes art a public issue

More than 300 years ago, Basel established a public art collection, which ranks high on Basel's list of priorities. It is just as much a part of the city as the Rhine is. Works by outstanding international artists, such as Tinguely's fountain, Borofsky's 'Hammering Man' and Serr's 'Intersection'; the many galleries also offer an unbelievable variety. In 1967 the City acquired works by the great Picasso. Visitors can choose from more than thirty museums and the variety is breathtaking for virtually any taste.

Where business and hospitality go together

In 1471 Emperor Friedrich III granted Basel the privilege of holding fairs. Since that time the City has developed into Switzerland's leading fair and congress centre. Favored by its central location and superb travel connections, it is now one of the most important centers in Europe. Main events held here are 'Art Basel' (largest art fair in the world) or 'Baselworld' (world watch, clock and jeweler show). In Basel you will find superb infrastructure, hotels and entertainment.
