

## Yuri Jung - Public Relations Officer YPG 2017-2018

Greetings! My name is Yuri Jung from South Korea. I'm a medical communicator and co-founder of SO & COMPANY. SO & COMPANY, established in 2015, is a unique medical communication & consulting company which has qualified creative medical experts, located in Seoul, South Korea.

It's been 10 years since I became a part of global pharmacy world. I have been fascinated about communicating in the global pharmacy world since I was a student, dedicated to IPSF and national organization - Korean National Association for Pharmaceutical Students (KNAPS) - as a LIT coordinator, Contact Person, and Secretary General of 9th Asia-Pacific Pharmaceutical Symposium in 2010 in South Korea. I first joined to FIP in 2012, FIP Centennial Congress was my first Congress. Also, as a member of Local Organizing Committee of 2017 Seoul FIP Congress, I tried my best to make the Congress as a great experience for everyone.

I am very excited and looking forward to work as a member of FIP. I will do my best to let FIP-YPG become the concrete platform for all YPG members to be able to do networking and to prepare the future ahead, also to publish FIP-YPG wide to spread various interesting news and promotion of FIP.

Please, let me know interesting stories, works and activities from you or your national young pharmacist group. They are worth being shared with others and we will help you. :)
