GLOBAL CONFERENCE ON THE FUTURE OF HOSPITAL PHARMACY

30-31 August 2008, Basel, Switzerland
during the 68th International Congress of FIP

Preliminary programme

Global Conference on the Future of Hospital Pharmacy

Hosted by the FIP Hospital Pharmacy Section

FIP is a world-wide federation of national pharmaceutical associations, with a mission to represent and serve pharmacy and pharmaceutical sciences around the globe. Through its member associations and individual members, FIP connects, represents and serves more than a million pharmacists and pharmaceutical scientists around the world.

Hospital pharmacists from around the world belong to the Hospital Pharmacy Section of FIP. The Hospital Pharmacy Section, founded in 1957, focuses on education, communication and improving the pharmacy practice in hospitals around the world.

COMPLETE HOSPITAL PHARMACY PROGRAMME DURING THE FIP CONGRESS

FIP Congress registration is required for all participants of the Global Conference. This will automatically entitle you to participate in the full Hospital Pharmacy Programme of the FIP Congress. Three half-day symposia will be organised on the following topics:

•   Applying the Consensus Statements of the Global Conference on the Future of Hospital Pharmacy. This symposium is devoted to bringing the results of the Global Conference to action.
•   Making Paediatric Medicines Work: A joint session with the FIP Industrial Pharmacy Section
•   Clinical Hospital Pharmacy Practice – From Dreams to Reality and Beyond

In addition to the educational sessions, a variety of meetings and social events will give you the opportunity to share professional experiences in hospital pharmacy with colleagues from all over the world.

MAKE PLANS NOW TO ATTEND THE GLOBAL CONFERENCE ON THE FUTURE OF HOSPITAL PHARMACY AND THE 68TH INTERNATIONAL CONGRESS OF FIP. WE HOPE TO SEE YOU IN BASEL!

You are invited to participate in a historic event that will guide the future development of hospital pharmacy practice around the world. The FIP Hospital Pharmacy Section (HPS) is hosting a Global Conference on the Future of Hospital Pharmacy immediately before the start of the 68th International Congress of the International Pharmaceutical Federation (FIP). The conference is open to hospital pharmacists and other individuals interested in hospital pharmacy practice.

The complete findings of a Global Survey on Hospital Pharmacy Practice, a FIP Board of Pharmaceutical Practice Special Project carried out in 2007-2008, will be presented.

Learning objectives
At the conclusion of this programme, the participants will be able to:

- List all of the steps in the medication-use system for hospitalised patients.
- Describe ways to assure the integrity of the drug supply in the hospitals.
- Describe strategies for improving prescribing medicines in hospitals.
- State how the hospital drug distribution system can improve medication-use safety.
- Describe tools for pharmacists to ensure safe and effective medication use in hospitals.
- Discuss key issues related to human resources and training of pharmacists in hospitals.
- Identify the key strategies that should be used to align the capabilities of pharmacists with the needs of hospitalized patients.
- Discuss the appropriate priorities for hospital pharmacy leaders as related to the development status of a country.
- Identify opportunities for global cooperation that will allow every country to achieve their goals for hospital pharmacy.

The participants will identify opportunities for global advancement of hospital pharmacy practice relevant to the needs of each participating country. Working group sessions will focus on various dimensions of the medication use process in hospital. Consensus statements will be developed to offer guidance on the development of tools to advance hospital pharmacy practice.

The conference will truly be a unique opportunity to influence, in a very direct way, the development of hospital pharmacy in all countries of the world, consistent with the critical needs that patients and healthcare professionals have for pharmacists’ expertise.
