FIP Individual Membership Benefits

Join our global pharmacy network by becoming a member of the International Pharmaceutical Federation (FIP). Since 1912, FIP has represented pharmacists, pharmaceutical scientists and educators worldwide. By becoming an individual member, you can benefit from a wide range of services and privileges. Join us!

Learn more about FIP Individual membership benefits and how to apply here: www.fip.org/registration

82nd FIP World Congress of Pharmacy and Pharmaceutical Sciences

Cape Town, South Africa
1-5 September 2024

Congress theme:
"Innovating for the future of healthcare"

capetown2024.fip.org

The potential for innovation in health care is vast and holds the promise of revolutionising the way we prevent, diagnose and treat diseases. With advancements in technology, data analytics and interdisciplinary collaborations, the healthcare industry is poised to undergo significant transformation in the coming years.

Pharmacists are pivotal for healthcare innovation across all settings due to their medication expertise, patient access, medication management responsibilities, collaborative nature, public health-impact, technology adoption and contributions to continuity of care.

Their involvement ensures that innovative practices are integrated into everyday healthcare delivery, leading to improved patient outcomes, enhanced safety and advancements in health care as a whole. By embracing these advancements, we can envision a future where health care is truly patient-centric, preventive and sustainable.

JOIN THE FIP CONGRESS 2024 TO EXPLORE THE TOPIC OF INNOVATING FOR THE FUTURE OF HEALTH CARE!

Host
The International Pharmaceutical Federation (FIP)

Supported by
The Pharmaceutical Society of South Africa (PSSA)

fip DEVELOPMENT GOALS

The FIP Development Goals, launched by the International Pharmaceutical Federation (FIP) in September 2020, are a key resource for transforming the pharmacy profession over the next decade globally, regionally and nationally.

They align with FIP's mission to support global health by enabling the advancement of pharmaceutical practice, sciences and education and are set to transform pharmacy in alignment with wider global imperatives underpinning the UN Sustainable Development Goals (SDGs).

We believe it is imperative to bring science, practice and workforce & education together into one transformative framework to clearly set out the goals for development for the next decade. With the Development Goals as a transformative framework, the recent 'FIP Global Roadmap 2030' serves to bridge the gap between our global commitments, Strategic Plan, and our Goals leading to 2030.

GENERAL INFORMATION

Badges

Participants can print their name badges at the registration desk. Due to security regulations, all participants and accompanying persons must wear their badges throughout the congress. Accompanying persons and exhibitor staff badges do not have access to the sessions. For more information please check the website or the app.

Breaks Monday – Wednesday

Coffee/tea breaks
Mon & Tue: 10:30 – 11:00 / 16:00 – 16:30
Wed: 10:30 – 11:00

Lunch breaks
Mon & Tue: 12:30 – 14:30
Wed: 12:30 – 13:30

Coffee/tea and lunch will be served in Exhibition Hall 1

Certificates

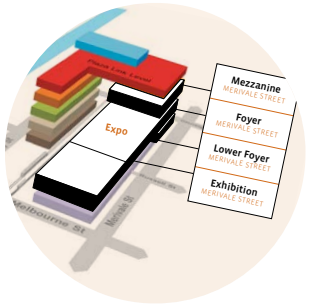

Certificates of congress attendance, poster and oral presentations will be mailed to the participants within 10 days of the close of the congress. Accompanying persons do not receive a certificate of attendance.

Filming, recording, photography and social media policy

Any photography, filming, taping, recording or reproduction in any medium of any of the programme sessions, events, exhibits and/or posters presented at the FIP congress without the express written consent of FIP is strictly forbidden. For more information, please see the website/ congress app.

Press room (Mezzanine level)

The congress press room will offer a number of services strictly limited to official press representatives and professional journalists.
Press accreditation and press registration are required for access to the press room.

DISCOVER THE FIP'S SECTIONS

For pharmacy practitioners

FIP has adopted as one of its three main strategic objectives the advancement of pharmacy practice in all settings. Eight FIP pharmacy practice sections develop projects and initiatives to help achieve this ambitious goal.

All individual members of FIP are automatically a member of the section of their choice, through which they can interact with colleagues with similar interests from all over the world.

FIP sections:

- Academic Pharmacy Section
- Clinical Biology Section
- Community Pharmacy Section
- Health and Medicines Information Section
- Hospital Pharmacy Section
- Industrial Pharmacy Section
- Military and Emergency Pharmacy Section
- Social and Administrative Pharmacy Section

Learn more about each FIP section and its activities here:
www.fip.org/pharmacy-practice

fip ADVANCING PHARMACY WORLDWIDE

DISCOVER FIP'S SPECIAL INTEREST GROUPS

For pharmaceutical scientists

The advancement of the pharmaceutical sciences on a global level is one of FIP's main strategic objectives. Six special interest groups (SIGs), led by the Board of Pharmaceutical Sciences, develop initiatives to help achieve this goal.

All individual FIP members can choose to be a member of a SIG, through which they can interact with peers and colleagues with similar interests from all over the world.

FIP SIGs:

- Drug Delivery and Manufacturing
- New Generation of Pharmaceutical Scientists
- New Medicines
- Personalised and Precision Medicine
- Pharmacy Practice Research
- Regulatory Sciences and Quality

Learn more about each SIG and its activities here:
www.fip.org/pharmaceutical-sciences

Optimising acute pain management: optimal care and reducing risks of harm in pharmacy

Join John Bell and Dr Catherine Duggan

For a CPD session that delves into optimising acute pain management with a focus on:

- Maximising use of over-the-counter analgesics across different indications
- Strategies for leveraging behind the counter analgesics
- Role of the pharmacist in risk mitigation through patient education

Date: Monday 25 September 2023
Time: 13:00 – 14:00

Sponsored by an unrestricted educational grant from Reckitt.
The views expressed here are the genuine opinions of the speakers.

Pfizer

A New Paradigm:

The Growing Role of Pharmacists in Public Health

This symposium will cover the important role of pharmacists as vaccinators and the opportunities to further advance their ever-growing role in meeting the public health need. Reflecting on the impact of the 2023 winter season in the Southern Hemisphere and the cocirculation of numerous vaccine-preventable respiratory diseases, speakers will underscore the pressure put on health systems and the important role that pharmacists play as vaccinators for adult respiratory diseases.

With experienced practitioners from around the world, the symposium will share advocacy best practices on how to best support appropriate pharmacist scope of practice expansion and showcase the successes some countries have seen in expanding pharmacist rights.

Join us to discuss:

- *The critical role of pharmacists as vaccinators and recognize their public health contributions.*
- *The need for vigilance to protect at-risk populations against vaccine-preventable respiratory diseases.*
- *The public health need for pharmacists to continue to support vaccination, help to improve uptake rates and vaccine confidence, and help to provide a simplified patient pathway.*
- *Success stories from across markets and advocacy best practices to help build momentum across countries.*

Please join us in Great Hall 3-4:

Tuesday 26 September

1:00pm - 2:30 pm
