

# GLOBAL SITUATION REPORT ON PHARMACY 2025

## WORKFORCE, PRACTICE, POLICY

*Evidence, investment and solutions  
to strengthen health systems*

# DEVELOPMENT GOALS

The FIP Development Goals, launched by the International Pharmaceutical Federation (FIP) in September 2020, are a key resource for transforming the pharmacy profession over the next decade globally, regionally and nationally.

They align with FIP's mission to support global health by enabling the advancement of pharmaceutical practice, sciences, education and workforce. They are set to transform pharmacy in alignment with wider global imperatives underpinning the UN Sustainable Development Goals (SDGs).

We believe it is imperative to bring science, practice, education & workforce together into one transformative framework to clearly set out the goals for development for the next decade. With the Development Goals as a transformative framework, the recent 'FIP Global Roadmap 2030' serves to bridge the gap between our global commitments, Strategic Plan, and our Goals leading to 2030.
