

Filipa Ferreira

FIP YPG Chairperson of Liaisons 2022

My name is Filipa Ferreira, and I am currently working as Lead Analytical Scientist in the R&D department of a Pharmaceutical Industry at Lisbon, Portugal. I grew up in Covilhã and obtained my Master and PhD degrees in Pharmaceutical Sciences at the University of Beira Interior (UBI).

Passionate about networking among people, I have been involved in several academic, professional and social organizations, either regional, national and international.

My first FIP Congress was in 2017, at the 6th FIP Pharmaceutical Sciences World Congress in Stockholm and the Young Scientist Satellite Conference in Uppsala. After that, I started my participation within FIP YPG group.

This year will be my fifth year serving on FIP YPG steering committee / subcommittee. I have joined FIP YPG in 2018 as Industrial Pharmacy Section Liaison, followed by Regulatory Sciences and Quality Liaison (*former Analytical Sciences and Pharmaceutical Quality SIG*), Innovation Grant Coordinator, member of the Working Group on the Promotion of Pharmaceutical Scientists, YPG representative in the FIP Champions T&F group, and now, as Chairperson of Liaisons. Apart from that, and I am a current Associate ExCo Member of the FIP Industrial Pharmacy Section.

This is being a fantastic experience and I would like to continue to contribute and put all my efforts, expertise, and enthusiasm in favor of this fantastic group. I am truly motivated and excited to serve FIP YPG as Chairperson of Liaisons and continue the excellent work that has been done during the last years, contributing to the affirmation and recognition of FIP YPG, as well as to the development of the pharmaceutical profession, particularly in supporting the young pharmacists and pharmaceutical scientists worldwide.
