

## **Lucas Ercolin**

### **FIP YPG Secretary 2022**

My name is Lucas Ercolin, a Humanitarian Pharmacist from Brazil. I am graduate from the São Paulo State University (UNESP), where I worked in research and development of new compounds. I also had the opportunity to join the International Pharmaceutical Students' Federation (IPSF) for six years, becoming an Honorary Life Member.

After my graduation, I looked for my professional calling on research, entrepreneurship, and community pharmacy. However, it was on the Humanitarian sector that I found myself – First as Mission Pharmacist in Iraq, and then as Project Manager in Yemen, and today in Ukraine, working with health, mental health, and nutrition.

My first FIP Congress was on the Centennial 2012 as a student, followed by 2019 as a Humanitarian Pharmacist. I joined YPG in 2020 as Member Relations' Coordinator, followed by Chairperson of Public Relations 2021 and today as Secretary.

Looking forward to see you as an active part of the pharmaceutical youth!
