

**Tammy Chetty**  
**August 2021**  
**Nomination intention for the Exco Position on IPS**

This serves as an application to be considered for the role of Exco member on IPS FIP.  
It will be an honour to be nominated and fulfil this esteemed role on the Industry Sector for FIP.

My journey with FIP started in 2012 when I represented South Africa at the FIP Annual Conference in Amsterdam.

Subsequent trips to the annual FIP conference in Dublin 2013, Germany 2015 and Seoul 2017 have allowed me to make wonderful connections and friends globally.

I have used some of those connections and invited speakers to our South African conferences.

I have served as an Associate Exco member of Industry Pharmacy Sector (IPS) in FIP from Feb 2016 to date. Key highlights include the IPS co-lead for the factory tour in the Seoul Conference and most recently leading the Strategic Sub-Committee for IPS.

I have gained knowledge and experience over the years by being closely affiliated to IPS and FIP to understand the IPS Exco commitment and have watched and learned from the rest of the committee. I certainly am prepared ready to take on this challenge.

My strengths are pragmatic decision making together with cross functional capabilities that allow for networking and long-term liaisons, as well as experience in regulatory, quality, pharmacovigilance and products spanning from medicine, complementary medicine, cosmetics and medical devices.

I would be happy to answer any questions from the membership and contactable on my email addresses listed above.

I will be honored to represent you and the industry interests as an IPS Exco member.
