Military and Emergency Pharmacy Section
Annual Report 2019

- Completion of the project on contributing a chapter on military pharmacy – published in October 2019
- Signing of a Memorandum of Understanding with the International Committee of Military Medicine. Approved by FIP. – May 2019
- 2 webinars, 4 newsletters
- Very successful Congress in Abu Dhabi.
- Continuation of a project on compiling a resource library for emergency / humanitarian resources
- Continuation on a project on researching the effects of extreme temperatures on medicines in order to produce some guidance for members.
- Working Group on developing competence requirements for humanitarian pharmacists. Now collaborating with FIPed to produce the framework.
- Very good outreach from members presenting at other Congresses / Conferences
  - Joint pharmacy program between the ICMM Technical Commission on Pharmacy and the MEPS at the international meeting of ICMM – May 2019
  - Presentation on FIP at the annual conference of the Ordre des Pharmaciens de Tunisie – 30 Oct 2019
- Great communication between members using the WhatsApp Chat Groups.

- One significant activity is the continuation of a collaborative Supply Chain Special Interest Group, in collaboration with the Industrial Pharmacy Section. This is meeting the vision under Pillar 2 of working with Interprofessional Teams and Collaborative Practice. Pharmacists and possibly other related professionals working together to discuss and potentially resolve issues in an area of practice that impacts on us all.

Goals for 2020:

- Goal #1: To continue the identification of resources for the resource list for managing medicines in extreme temperatures.
- Goal #2: To actively participate in the work of the Supply Chain Special Interest Group
- Goal #3: To help members manage emergency situations such as the coronavirus pandemic.
