

Educating for collaborative working
Bruno Sepodes
Academia / Professional Association / Regulator
PORTUGAL

Principal challenge: *From dialogue to the courage to make a change*

Country-level/association priority: *Development of a collaborative platform between Universities and professionals with the aim of reinforcing the competences of pharmacists in key areas, namely Pharmacotherapy and Clinical Pharmacy.*

Our insight and ambition: *Transformative pharmacy teaching with a clear focus on pharmacotherapy, pharmaceutical care and clinical components; Close interaction with professionals in the frontiers of the competences of pharmacists making them part of the learning and teaching process.*

Reinforcement of the pharmacists identity, competences and skills.
